I found this book a refreshing contrast to the sappiness of the Twilight saga. It pokes fun of every detail of the books, from the book cover to the color of Edward's eyes.

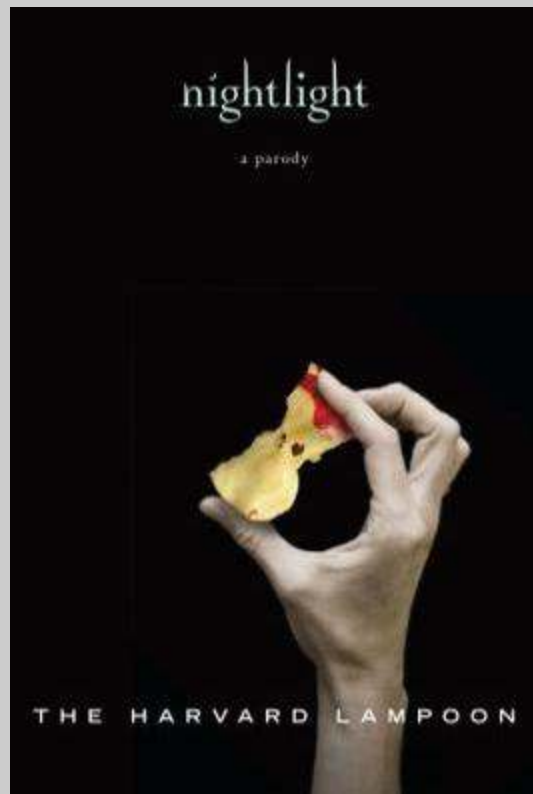

Twilight lovers and haters will both rejoice over this book.

I highly recommend it.

# NIGHTLIGHT

The Harvard Lampoon

*“About three things I was absolutely certain. First, Edwart was most likely my soul mate, maybe. Second, there was a vampire part of him—which I assumed was wildly out of his control—that wanted me dead. And third, I unconditionally, irrevocably, impenetrably, heterogeneously, gynecologically, and disreputably wished he had kissed me.”*

**Nightlight is a hilarious spoof of the Twilight saga books and movies. It is the story of a vampire-obsessed girl and her faux-vampire boyfriend, Edwart.**
